

COVID-19 ACTION PROTOCOL BEFORE GOING TO THE SEA

Safety protocol according to the Measures for the reduction of contagion by the SARS COV-2 Coronavirus, from the Spanish Institute for Tourism Quality (ICTED), commissioned by the Ministry of Industry, Commerce and Tourism - Government of Spain

The client will receive all the previous information, as well as the documentation to be completed by telematic means. The agreed amount will also be contracted and paid by telematic means, whenever possible

Whenever circumstances allow, the meeting point for the activity will be previously agreed between the company and the client, so that we can avoid visits to the workplace

Those who have their own equipment must reach the area closest to the company vehicle with the equipment on (suit + booties). In the area near the vehicle, the rest of the equipment will be provided, which, in compliance with the regulations, has been previously disinfected. The company personnel will be in charge of distributing the equipment. It will be done in an organized way and without taking up the space for longer than necessary so that others can use it later.

THROUGHOUT THE PROCESS THE SAFETY DISTANCES WILL BE MAINTAINED

According to regulations, it is recommended not to share food, drinks, or creams unless you live in the same home.

The company will make hand sanitizing gel and disposable paper roll available to the customer in the company vehicle. The vehicle will have all the necessary signage to maintain sanitary hygiene standards.

SAFETY DISTANCES ARE RESPECTED WITH THE REST CUSTOMERS / BATHERS IN THE AREA
